

In reference to MB Docket No. 04-233

Please consider my comments regarding LPFM stations . . .

I do not believe you should allow LPFM stations to take priority over current FM service.

I am one of the hundreds of thousands of listeners that feel K-LOVE is crucial to my day. I listen almost exclusively to K-LOVE. K-LOVE is extremely important to me for many reasons, it gives me important information regarding national events, it uplifts me, encourages me . . . and frankly I would be lost without K-LOVE. There has been a few times when K-LOVE has lost power in our area and I can honestly say it was very discomfoting . . .

If I feel this way . . . being only ONE listener out of thousands, please consider how the many other thousands of listeners would be effected. I also must let you know that my children, Aric (14) and Amanda (11) also listen to K-LOVE on a regular basis. They also listen to another FM station, 88.3. Without these stations, my children would be listening to something that may not be as healthy and encouraging.

PLEASE, please take into consideration the many THOUSANDS of listeners who appreciate our FM station K-LOVE. This station alone reaches so many lost, sad, heart-broken people. It has affected so many in so many ways!

Thank you for your consideration. It is not often I feel so strongly that I would take the time to submit a comment or write to to a any organization . . . BUT I feel strongly that we must keep FM - especially K-LOVE - A LIGHT IN THIS hard world!
